Subject: Seaman's book issued by the Polish Maritime Administration

Polish seaman's book is issued by the Maritime Offices in Gdynia and Szczecin, in accordance with the provisions of Convention no. 108 of International Labour Organization (ILO) on Seafarers' Identity Documents, 1958.

Taking into account that the ILO Convention no. 185 on Seafarers' Identity Documents (Revised), 2003, as amended, has not been ratified by the Republic of Poland, its provisions are not applicable to Polish seafarers and hence the seaman's book should be accepted as a valid Seafarer's Identity Document (SID).
